Kindly refer to the subject mentioned above.

2. Public Financial Management Unit (PFMU) has been established in Finance Department in 2022 which houses professionals of diverse expertise for supporting Departments / Public Sector Entities (PSEs) in finding financial solutions for modern day public service delivery challenges.

3. PFMU has engaged services of specialists and experts in various areas to provide a range of consulting / support services. PFMU is committed to provide assistance to various Departments through tailored solutions and guidance resulting in reduced reliance on external consultancies. Our initial range of services include business and financial planning, budgeting, accounting & compliance services, risk management, business process reengineering, public procurement including e-procurement implementation, corporate governance and legal advisory services. Furthermore, PFMU aims to contribute towards capacity building of staff of Departments / PSEs through workshops and training sessions in all these areas.
